TROCAL 88.
AluClip aluminium cover.

The forward-looking combination.

» TROCAL 88 AluClip.

TROCAL 88 AluClip combines an ultra-modern PVC profile system with an aluminium cover. This modern system therefore unites the advantages of the two materials of PVC and aluminium in one single window. PVC profiles have optimum heat insulation and soundproofing properties, as well as durable functionality. Aluminium, on the other hand, is elegant, weatherproof and available in a wide variety of colour finishes.

TROCAL 88. Window and door systems with 88 mm installation depth.

■ **Elegant design.**

Linear, recessed window design with butt-jointed aluminium profiles.

■ **Excellent heat insulation.**

Outstanding heat insulation compared with aluminium windows.

■ **Individual features.**

Wide range of glazing options up to 56 mm thick, from triple glazing to special functional glazing.

■ **Large range of colours.**

Aluminium look on the outside, neutral white on the inside.

Practically unlimited choice of aluminium shell colours with finishing techniques including Eloxal and powder coating.

■ **Environmentally friendly and convenient.**

Sustainable use of aluminium. Easy care, durable and robust.
