TROCAL 88.  
AluClip Pro with proEnergyTec.

# Pioneering heat insulation.

## » TROCAL 88 AluClip Pro with proEnergyTec.

TROCAL 88 AluClip Pro is an aluminium facing shell that performs the static function of conventional steel reinforcement elements inside the frame. The empty reinforcement chambers are filled with proEnergyTec foam. The result is a high insulating window with an elegant aluminium look!

TROCAL 88. Window and door systems with 88 mm installation depth.

### ■ Elegant design.

Linear, semi-recessed window design with butt-jointed aluminium profiles.

### ■ Excellent heat insulation values.

Through the use of proEnergyTec technology.

### ■ Individual features.

Wide range of glazing options up to 56 mm thick, from triple glazing to special functional glazing.

### ■ Excellent statics.

High stability as a result of the aluminium profile.

### ■ Large range of colours.

Aluminium look on the outside, neutral white on the inside.

Practically unlimited choice of aluminium shell colours with finishing techniques including Eloxal and powder coating.
