

PRESS RELEASE

profine Brasil opens new company headquarters

On February 27, 2020, the profine Group officially opened the new company headquarters of profine Brasil in the city of Osório, at the same date as the 18th anniversary of its business in Brazil.

In the future, the subsidiary of the system provider will supply its customers with products by the Kömmerling brand from a location of 50,000 square meters. The administration, training and conference rooms as well as storage and logistics halls are located in a 11,000 square meters building complex.

Osório in the southern state of Rio Grande do Sul is logistically very convenient for delivering to profine customers.

“The new, larger headquarters enables us to significantly increase customer service. In addition, it offers sufficient space for our further growth in the country and throughout South America”, says Dr. Peter Mrosik, owner and CEO of the profine Group, at the inauguration ceremony of the new location.
